## January

**Mark A. Jirsa** The Midway sequence: a Timiskaming-type, pull-apart basin deposit in the western Wawa subprovince, Minnesota 1

**Michael T. Lewchuk, Ihsan S. Al-Aasm, David T.A. Symons, and Kevin P. Gillen** Late Laramide dolomite recrystallization of the Husky Rainbow "A" hydrocarbon Devonian reservoir, northwestern Alberta, Canada: paleomagnetic and geochemical evidence 17

**Lance Grande, Li Guo-Qing, and Mark V.H. Wilson** *Amia* cf. *pattersoni* from the Paleocene Paskapoo Formation of Alberta 31

**E.M. King, J.W. Valley, and D.W. Davis** Oxygen isotope evolution of volcanic rocks at the Sturgeon Lake volcanic complex, Ontario 39

**Claire L. Beaney and John Shaw** The subglacial geomorphology of southeast Alberta: evidence for subglacial meltwater erosion 51

**Stéphane Campeau, Arnaud Héquette, and Reinhard Pienitz** Late Holocene diatom biostratigraphy and sea-level changes in the southeastern Beaufort Sea 63

**V.N. Rampton** Large-scale effects of subglacial meltwater flow in the southern Slave Province, Northwest Territories, Canada 81

**P. Neumayr, S.G. Hagemann, and J.-F. Couture** Structural setting, textures, and timing of hydrothermal vein systems in the Val d'Or camp, Abitibi, Canada: implications for the evolution of transcrustal, second- and third-order fault zones and gold mineralization 95

**Instructions to authors** I-1

**Recommandations aux auteurs** R-1

## February/March / février/mars

*The Lithoprobe Abitibi–Grenville Transect / Le transect d'Abitibi–Grenville du projet Lithoprobe*

**John Ludden and Andrew Hynes** The Abitibi–Grenville Lithoprobe transect part III: introduction 115

**W.J. Davis, S. Lacroix, C. Gariépy, and N. Machado** Geochronology and radiogenic isotope geochemistry of plutonic rocks from the central Abitibi subprovince: significance to the internal subdivision and plutono-tectonic evolution of the Abitibi belt 117

**Robert Kerrich and John Ludden** The role of fluids during formation and evolution of the southern Superior Province lithosphere: an overview 135

**A.P. Dickin** Crustal formation in the Grenville Province: Nd-isotope evidence 165

**D.J. White, D.A. Forsyth, I. Asudeh, S.D. Carr, H. Wu, R.M. Easton, and R.F. Mereu** A seismic-based cross-section of the Grenville Orogen in southern Ontario and western Quebec 183

**S.D. Carr, R.M. Easton, R.A. Jamieson, and N.G. Culshaw** Geologic transect across the Grenville orogen of Ontario and New York 193

**J.W.F. Ketchum and A. Davidson** Crustal architecture and tectonic assembly of the Central Gneiss Belt, southwestern Grenville Province, Canada: a new interpretation 217

**Louise Corriveau and David Morin** Modelling 3D architecture of western Grenville from surface geology, xenoliths, styles of magma emplacement, and Lithoprobe reflectors 235

**Louise Corriveau and Otto van Breemen** Docking of the Central Metasedimentary Belt to Laurentia in geon 12: evidence from the 1.17–1.16 Ga Chevreuil intrusive suite and host gneisses, Quebec 253

**Don Francis, Pamela Scowen, Gerald Panneton, and Ronald Doig** Contrasting Si-saturation in troctolite–anorthosite intrusions along the Manicouagan corridor of the Abitibi–Grenville transect 271

**J. Martignole, A.J. Calvert, R. Friedman, and P. Reynolds** Crustal evolution along a seismic section across the Grenville Province (western Quebec) 291

**David W. Eaton and Andrew Hynes** The 3-D crustal structure in the Manicouagan region: new seismic and gravity constraints 307

**Aphrodite Indares, Greg Dunning, and Richard Cox** Tectono-thermal evolution of deep crust in a Mesoproterozoic continental collision setting: the Manicouagan example 325

**Andrew Hynes, Aphrodite Indares, Toby Rivers, and André Gobeil** Lithoprobe line 55: integration of out-of-plane seismic results with surface structure, metamorphism, and geochronology, and the tectonic evolution of the eastern Grenville Province 341

**Toby Rivers and David Corrigan** Convergent margin on southeastern Laurentia during the Mesoproterozoic: tectonic implications 359

**Hamid Telmat, Jean-Claude Mareschal, Clément Gariépy, Jean David, and Caroline N. Antonuk** Crustal models of the eastern Superior Province, Quebec, derived from new gravity data 385

**J.C. Mareschal, C. Jaupart, C. Gariépy, L.Z. Cheng, L. Guillou-Frottier, G. Bienfait, and R. Lapointe** Heat flow and deep thermal structure near the southeastern edge of the Canadian Shield 399

**Stéphane Rondenay, Michael G. Bostock, Thomas M. Hearn, Donald J. White, Hua Wu, Guy Sénéchal, Shaocheng Ji, and Marianne Mareschal** Teleseismic studies of the lithosphere below the Abitibi–Grenville Lithoprobe transect 415

**David E. Boerner, Ron D. Kurtz, and James A. Craven** A summary of electromagnetic studies on the Abitibi–Grenville transect 427

**R.F. Mereu** The complexity of the crust and Moho under the southeastern Superior and Grenville provinces of the Canadian Shield from seismic refraction – wide-angle reflection data 439

**John Ludden and Andrew Hynes** The Lithoprobe Abitibi–Grenville transect: two billion years of crust formation and recycling in the Precambrian Shield of Canada 459

**D.E. Boerner, B. Milkereit, and A. Davidson** Geoscience impact: a synthesis of studies of the Sudbury Structure 477

**Erick Adam, G. Perron, B. Milkereit, Jianjun Wu, A.J. Calvert, M. Salisbury, Pierre Verpaelst, and Denis-Jacques Dion** A review of high-resolution seismic profiling across the Sudbury, Selbaie, Noranda, and Matagami mining camps 503

## April / avril

**Stéphane Digonnet, Normand Goulet, James Bourne, Ross Stevenson, and Doug Archibald** Petrology of the Abloviak Aillikite dykes, New Québec: evidence for a Cambrian diamondiferous alkaline province in northeastern North America 517

**David I. Schofield and Richard S. D'Lemos** Granite petrogenesis in the Gander Zone, NE Newfoundland: mixing of melts from multiple sources and the role of lithospheric delamination 535

**J. Pálfy, J.K. Mortensen, P.L. Smith, R.M. Friedman, V. McNicoll, and M. Villeneuve** New U–Pb zircon ages integrated with ammonite biochronology from the Jurassic of the Canadian Cordillera 549

**H.G. Padilla, R. Belmont, M.B. Torres, and A.P. Báez** Hurricanes Pauline and Nora rainwater chemical composition 569

**D. Barrie Clarke, Raymond Fallon, and Larry M. Heaman** Interaction among upper crustal, lower crustal, and mantle materials in the Port Mouton pluton, Meguma Lithotectonic Zone, southwest Nova Scotia 579

**Arthur S. Dyke and James M. Savelle** Major end moraines of Younger Dryas age on Wollaston Peninsula, Victoria Island, Canadian Arctic: implications for paleoclimate and for formation of hummocky moraine 601

**John A. Westgate, Shari J. Preece, Erica Kotler, and Sheila Hall** Dawson tephra: a prominent stratigraphic marker of Late Wisconsinan age in west-central Yukon, Canada 621

## May / mai

*The Climate System History and Dynamics Program — CSHD / [Le programme Historique et dynamique du système climatique]*

**W.R. Peltier** The Climate System History and Dynamics Program — CSHD: Introduction 629

**G. Vettoretti, W.R. Peltier, and N.A. McFarlane and PMIP participating groups** The simulated response of the climate system to changes in soil moisture parameterization under paleoclimatic boundary conditions at 6000 years before present 635

**K. Gajewski, Robert Vance, M. Sawada, Inez Fung, L. Dennis Gignac, Linda Halsey, Jasmin John, Philippe Maisongrande, P. Mandell, Peta J. Mudie, Pierre J.H. Richard, A.G. Sherin, Jason Soroko, and Dale H. Vitt** The climate of North America and adjacent ocean waters ca. 6 ka 661

**Dale H. Vitt, Linda A. Halsey, Ilka E. Bauer, and Celina Campbell** Spatial and temporal trends in carbon storage of peatlands of continental western Canada through the Holocene 683

**G. Vettoretti, W.R. Peltier, and N.A. McFarlane** Global water balance and atmospheric water vapour transport at last glacial maximum: climate simulations with the Canadian Climate Centre for Modelling and Analysis atmospheric general circulation model 695

**Anne de Vernal, Claude Hillaire-Marcel, Jean-Louis Turon, and Jens Matthiessen** Reconstruction of sea-surface temperature, salinity, and sea-ice cover in the northern North Atlantic during the last glacial maximum based on dinocyst assemblages 725

**M.C. Reader, I. Fung, and N. McFarlane** Mineral aerosols: a comparison of the last glacial maximum and preindustrial Holocene 751

**Shawn J. Marshall, Lev Tarasov, Garry K.C. Clarke, and W. Richard Peltier** Glaciological reconstruction of the Laurentide Ice Sheet: physical processes and modelling challenges 769

**Claude Hillaire-Marcel and Guy Bilodeau** Instabilities in the Labrador Sea water mass structure during the last climatic cycle 795

**Nathaniel W. Rutter, Andrew J. Weaver, Dean Rokosh, Augustus F. Fanning, and Daniel G. Wright** Data-model comparison of the Younger Dryas event 811

**Frank R. Rack, Nathaniel W. Rutter, Andrew Bush, Dean Rokosh, and Zhongli Ding** Linking ocean and continental records of paleoclimate: determining accord and discord in the records 831

## June / juin

**E. Kotler and C.R. Burn** Cryostratigraphy of the Klondike "muck" deposits, west-central Yukon Territory 849

**D.G. Froese, R.W. Barendregt, R.J. Enkin, and J. Baker** Paleomagnetic evidence for multiple Late Pliocene – Early Pleistocene glaciations in the Klondike area, Yukon Territory 863

**S.R. Hemming, R.H. Gwiazda, J.T. Andrews, W.S. Broecker, A.E. Jennings, and T.C. Onstott** $^{40}Ar/^{39}Ar$ and Pb–Pb study of individual hornblende and feldspar grains from southeastern Baffin Island glacial sediments: implications for the provenance of the Heinrich layers 879

**David M. Martill, Eberhard Frey, Hans-Dieter Sues, and Arthur R.I. Cruickshank** Skeletal remains of a small theropod dinosaur with associated soft structures from the Lower Cretaceous Santana Formation of northeastern Brazil 891

**Joachim W. Härtling and Robert Gilbert** Spatial distribution of surficial sediments in part of the Kingston basin of northeastern Lake Ontario, Canada 901

**D.T.A. Symons and M.J. Harris** The ~1830 Ma Trans-Hudson hairpin from paleomagnetism of the Wapisu gneiss dome, Kisseynew Domain, Manitoba 913

**J. Pálfy, P.L. Smith, and J.K. Mortensen** A U–Pb and $^{40}Ar/^{39}Ar$ time scale for the Jurassic 923

**John N. Aleinikoff, G. Lang Farmer, Robert O. Rye, Warren J. Nokleberg** Isotopic evidence for the sources of Cretaceous and Tertiary granitic rocks, east-central Alaska: implications for the tectonic evolution of the Yukon–Tanana Terrane 945

**Henry C. Halls and Larry M. Heaman** The paleomagnetic significance of new U–Pb age data from the Molson dyke swarm, Cauchon Lake area, Manitoba 957

## July / juillet

**C.R. Burn** The thermal regime of a retrogressive thaw slump near Mayo, Yukon Territory 967

**Shari J. Preece, John A. Westgate, Brent V. Alloway, and Michael W. Milner** Characterization, identity, distribution, and source of late Cenozoic tephra beds in the Klondike district of the Yukon, Canada 983

**Robert B. MacNaughton, Guy M. Narbonne, and Robert W. Dalrymple** Neoproterozoic slope deposits, Mackenzie Mountains, northwestern Canada: implications for passive-margin development and Ediacaran faunal ecology 997

**Pete Hollings, Greg Stott, and Derek Wyman** Trace element geochemistry of the Meen–Dempster greenstone belt, Uchi subprovince, Superior Province, Canada: back-arc development on the margins of an Archean protocontinent 1021

**Scott D. Samson, Sandra M. Barr, and Chris E. White** Nd isotopic characteristics of terranes within the Avalon Zone, southern New Brunswick 1039

**Pauline Orr and Robert W. Luth** Petrology and oxygen-isotope geochemistry of the Yamba Lake kimberlite rocks, N.W.T. 1053

**C.R.M. McFarlane and D.R.M. Pattison** Geology of the Matthew Creek metamorphic zone, southeast British Columbia: a window into Middle Proterozoic metamorphism in the Purcell Basin 1073

## August / Août

**C.L. Deyell, J.F.H. Thompson, R.M. Friedman, and L.A. Groat** Age and origin of advanced argillic alteration zones and related exotic limonite deposits in the Limonite Creek area, central British Columbia 1093

**Michael A. Poage, Donald W. Hyndman, and James W. Sears** Petrology, geochemistry, and diabase–granophyre relations of a thick basaltic sill emplaced into wet sediments, western Montana 1109

**James N. Connelly, Jeroen A.M. van Gool, and Flemming C. Mengel** Temporal evolution of a deeply eroded orogen: the Nagssugtoqidian Orogen, West Greenland 1121

**Vincenzo Pascucci, Martin R. Gibling, and Mark A. Williamson** Late Paleozoic to Cenozoic history of the offshore Sydney Basin, Atlantic Canada 1143

**Simon J. Braddy and Jason A. Dunlop** Early Devonian eurypterids from the Northwest Territories of Arctic Canada 1167

**D.E. Jackson and A.C. Lenz** Some graptolites from the late Tremadoc and early Arenig of Yukon, Canada 1177

**K.R. Royse and R.G. Park** Emplacement of the Nain anorthosite: diapiric versus conduit ascent 1195

## September / septembre

**W. Kalkreuth, D. Marchioni, and J. Utting** Petrology, palynology, coal facies, and depositional environments of an Upper Carboniferous coal seam, Minto Coalfield, New Brunswick, Canada 1209

**M.G. Sommers, S.M. Awramik, and K.S. Woo** Evidence for initial calcite–aragonite composition of Lower Algal Chert Member ooids and stromatolites, Paleoproterozoic Gunflint Formation, Ontario, Canada 1229

**N. Culshaw, T. Brown, P.H. Reynolds, and J.W.F. Ketchum.** Kanairiktok shear zone: the boundary between the Paleoproterozoic Makkovik Province and the Archean Nain Province, Labrador, Canada. 1245

**M.E. McMechan** Walker Creek fault zone, central Rocky Mountains, British Columbia—southern continuation of the Northern Rocky Mountain Trench fault zone 1259

**Fernando Corfu and Shoufa Lin** Geology and U–Pb geochronology of the Island Lake greenstone belt, northwestern Superior Province, Manitoba 1275

**Karl V. Evans, John N. Aleinikoff, John D. Obradovich, C. Mark Fanning** SHRIMP U–Pb geochronology of volcanic rocks, Belt Supergroup, western Montana: evidence for rapid deposition of sedimentary strata 1287

**Jianwen Yang and R.N. Edwards** Predicted groundwater circulation in fractured and unfractured anisotropic porous media driven by nuclear fuel waste heat generation 1301

**Oscar Talavera Mendoza** Mélanges in southern Mexico: geochemistry and metamorphism of Las Ollas complex (Guerrero terrane) 1309

## October / Octobre

**Michael J. Bovis and Matthias Jakob** The July 29, 1998, debris flow and landslide dam at Capricorn Creek, Mount Meager Volcanic Complex, southern Coast Mountains, British Columbia 1321

**A.F. Bajc, D.P. Schwert, B.G. Warner, and N.E. Williams** A reconstruction of Moorhead and Emerson Phase environments along the eastern margin of glacial Lake Agassiz, Rainy River basin, northwestern Ontario 1335

**John England, I. Rod Smith, and David J.A. Evans** The last glaciation of east-central Ellesmere Island, Nunavut: ice dynamics, deglacial chronology, and sea level change 1355

**Russell L. Hall, Debra R. Kendall, David G. Taylor, and James Craig** A new ammonite and coccolith fauna from the lowermost Fernie Formation (Hettangian) in northwestern Alberta, Canada 1373

**T.K. Gangopadhyay and S. Bardhan** Dimorphism and a new record of *Barroisiceras* De Grossouvre (Ammonoidea) from the Coniacian of Bagh, central India 1377

**C.R. Stelck, J.A. MacEachern, and S.G. Pemberton** A calcareous foraminiferal faunule from the upper Albian Viking Formation of the Giroux Lake and Kaybob North fields, northwestern Alberta: implications for regional biostratigraphic correlation 1389

**Melahat Beyarslan and A. Feyzi Bingöl** Petrology of a supra-subduction zone ophiolite (Elazığ, Turkey) 1411

**Jean-Yves Josnin, Séverin Pistre et Claude Drogue** Modélisation d'un système karstique complexe (bassin de St-Chaptes, Gard, France) : un outil de synthèse des données géologiques et hydrogéologiques 1425

## November / novembre

*The Lithoprobe Alberta Basement Transect / Le transect Lithoprobe du socle albertain*

**Gerald M. Ross** Introduction to special issue of Canadian Journal of Earth Sciences: The Alberta Basement Transect of Lithoprobe 1447

**M. Pilkington, W.F. Miles, G.M. Ross, and W.R. Roest** Potential-field signatures of buried Precambrian basement in the Western Canada Sedimentary Basin 1453

**Sophie Lemieux, Gerald M. Ross, and Frederick A. Cook** Crustal geometry and tectonic evolution of the Archean crystalline basement beneath the southern Alberta Plains, from new seismic reflection and potential-field studies 1473

**David W. Eaton, Gerald M. Ross, Frederick A. Cook, A. VanderVelden** Seismic imaging of the upper mantle beneath the Rocky Mountain foreland, southwestern Alberta 1493

**D.E. Boerner, R.D. Kurtz, J.A. Craven, G.M. Ross, and F.W. Jones** A synthesis of electromagnetic studies in the Lithoprobe Alberta Basement Transect: constraints on Paleoproterozoic indentation tectonics 1509

**R.N. Pysklywec and J.X. Mitrovica** Mantle flow mechanisms of epeirogeny and their possible role in the evolution of the Western Canada Sedimentary Basin **1535**

**Michael R. McDonough, Vicki J. McNicoll, Ernst M. Schetselaar, and Timothy W. Grover** Geochronological and kinematic constraints on crustal shortening and escape in a two-sided oblique-slip collisional and magmatic orogen, Paleoproterozoic Taltson magmatic zone, northeastern Alberta **1549**

**Vicki J. McNicoll, Réginald J. Thériault, and Michael R. McDonough** Taltson basement gneissic rocks: U–Pb and Nd isotopic constraints on the basement to the Paleoproterozoic Taltson magmatic zone, northeastern Alberta **1575**

**Thomas Chacko, Suman K. De, Robert A. Creaser, and Karlis Muehlenbachs** Tectonic setting of the Taltson magmatic zone at 1.9–2.0 Ga: a granitoid-based perspective **1597**

**Ronald A. Burwash, Thomas Chacko, Karlis Muehlenbachs, and Youcef Bouzidi** Oxygen isotope systematics of the Precambrian basement of Alberta: implications for Paleoproterozoic and Phanerozoic tectonics in northwestern Alberta **1611**

**Arndt L. Buhlmann, Patricia Cavell, Ronald A. Burwash, Robert A. Creaser, and Robert W. Luth** Minette bodies and cognate mica-clinopyroxenite xenoliths from the Milk River area, southern Alberta: records of a complex history of the northernmost part of the Archean Wyoming craton **1629**

## December / decembre

**Alexander D. McCracken, Derek K. Armstrong, and Thomas E. Bolton** Conodonts and corals in kimberlite xenoliths confirm a Devonian seaway in central Ontario and Quebec **1651**

**Richard A. Volkert, Craig A. Johnson, and Albert V. Tamashausky** Mesoproterozoic graphite deposits, New Jersey Highlands: geologic and stable isotopic evidence for possible algal origins **1665**

**John A. Ayer and Jaroslav Dostal** Nd and Pb isotopes from the Lake of the Woods greenstone belt, northwestern Ontario: implications for mantle evolution and the formation of crust in the southern Superior Province **1677**

**Pablo Valverde-Vaquero, Greg R. Dunning, and Cees R. van Staal** The Margaree orthogneiss: an Ordovician, peri-Gondwanan, mafic–felsic igneous complex in southwestern Newfoundland **1691**

**C.P.S. Larsen, W.A. Morris, and G.M. MacDonald** Records of geomagnetic secular variation since 1200 AD and the potential for chronological control of lake sediments in northern Alberta **1711**

**Michael R. Gipp** Lift-off moraines: markers of last ice-flow directions on the Scotian Shelf **1723**

**Yoichi Azuma and Philip J. Currie** A new carnosaur (Dinosauria: Theropoda) from the Lower Cretaceous of Japan **1735**

**Note of Appreciation / Note de reconnaissance** **iii**

**Author Index for Volume 37 / Index des auteurs pour le volume 37** **AI-1**

**Contents for Volume 37 / Sommaire pour le volume 37** **C-1**
